

HUERTA'S REFUSAL WILL GIVE MANY REASONS FOR NOT ACTING IN THE CASE

PROVISIONAL PRESIDENT WILL
POINT OUT THAT HE HAS NOT
THE RIGHT TO RESIGN.

LIND IN MEXICO CITY

Cabinet Meeting Held in Washington
to Fully Discuss the Situation—
Reserves Are to Prepare
for Service.

[BY ASSOCIATED PRESS.]

Mexico City, Nov. 7.—Provisional President Huerta's negative reply to the United States' demands, which was discussed in detail at last night's cabinet meeting, will set forth that the United States has no right, legal or otherwise, to demand General Huerta's elimination. This statement was given out today from one of the departments of the Mexican government.

The reply, it is said, will also point out that Provisional President Huerta has no legal right to accede to the demands.

The informant says it was decided to incorporate in the reply a declaration that Huerta intends to increase the Mexican army to 500,000 men.

The final stages of the negotiations between Mexico and the United States are to be participated in personally at short range by John Lind.

Series of Delays.

The series of delays in Provisional President Huerta's formal answer to the United States, and the lack of definite action which would indicate his attitude in face of the demands made has been annoying to President Wilson's personal representative. It was known that negotiations had been conducted in an indirect manner, not following the ordinary diplomatic course and Mr. Lind's sudden appearance in the federal capital is assumed to be due to his desire to bring things quickly to a clearly defined point.

Lind in Mexico.

John Lind, personal representative of President Wilson, arrived here this morning from Vera Cruz. The United States embassy here received no advance of his coming.

Mr. Lind proceeded to the American embassy where he will reside during his stay. He was accompanied by Captain William W. Bussard, American military attaché and Ensign John L. Hill, of the battleship Louisiana, who was detailed by Rear Admiral Fletcher to act as Mr. Lind's aid.

Much Speculation.

There was much speculation here today as to the character of the discussion at the cabinet meeting here. It is known that the relations between Mexico and the United States were discussed, but no definite action was taken.

Mr. Lind had not notified anybody that he was coming to Mexico City. The staff of the United States embassy learned the news from the morning papers. Only one of the clerks of the embassy went to the station to meet the federal and Mexican officials likewise did not know of Mr. Lind's movement and he came into the city in a manner contrasting greatly with his first arrival here.

Greeted at Depot.

As Mr. Lind stepped from the train he was greeted by several photographers, but to all inquiries he made no comment, replying that he was returning to the United States on his previous trip.

Marines Prepared.

Portsmouth, Nov. 7.—Orders were received from Washington today to 200 of the 300 marines stationed at the Portsmouth navy yard to prepare immediately for service in a southern climate.

Chester Ordered Out.

Philadelphia, Nov. 7.—The gun cruiser, Chester, under orders to hurry away to Vera Cruz, is expected to leave the Philadelphia navy yard today. The last of the supplies of provisions sufficient for three months was put aboard in the forenoon.

May Retire.

Berlin, Nov. 7.—Correspondent of the Frankfurt Gazette in Mexico City telegraphs today that General Huerta may perhaps retire from office as provisional president if the United States government withdraws its support. He is said to be doing so to avoid the appearance of yielding to American pressure alone.

Situation Tragic.

Rome, Nov. 7.—Commenting on the Mexican situation today the Giornale Italia says: "The horizon is dark over Mexico. The situation is becoming tragic."

Intervention is unpopular and it is not desired by the United States. It is difficult to avoid, as Provisional President Huerta will not yield.

Washington Surprised.

Washington, Nov. 7.—John Lind's unexpected return from Mexico City from Vera Cruz is understood here to have been without direct orders from Washington, but in line with the general instructions under which he has been enjoying the greatest freedom of movement. This latest development in the Mexican situation was surrounded by a great deal of reticence here. It was pointed out as probable that Huerta is about to accept the United States' terms, but upon a belief that important developments may be expected.

Needs Advice.

One official view is that Charge O'Shaughnessy has received some intimation that Huerta is about to answer the representations made early in the week or that O'Shaughnessy is desirous of advising with Lind on additional steps to be taken under his instructions.

Cabinet Meets.

The cabinet met today for the first time in several weeks. All the secretaries except Garrison and Wilson attended. It was understood that at the instance of the president one or two members who had planned to accompany the president to Mexico City were taken into the meeting, and Secretary Bryan carried a large envelope of state department dispatches.

More Reinforcements.

Under orders from Rear Admiral Fletcher commanding the squadron in the Gulf of Mexico, the battleship

New Hampshire is steaming to Vera Cruz from Tampico. With her arrival slight Mexican naval war will be assembled off Vera Cruz. Officials here gave no reason for sending the New Hampshire. Admiral Fletcher gave the order without instructions from the navy department. The gunboat Annapolis arrived today in lower California where she is guarding, at the request of the French foreign office, a band of French colonists.

Berlin's Views.

The Berlin dispatch referring to a plan to recall Minister Covarrubias, representative for Mexico at St. Petersburg, that he might be appointed minister of foreign affairs and succeed to the provisional presidency in succession to Huerta, created more than a little interest among diplomats.

Attorney General Rules That Sealers

[BY ASSOCIATED PRESS.]

Madison, Nov. 7.—Local sealers of weights and measures have authority to weigh and inspect packages of a Wisconsin dealer even though the owner may claim that the packages are for interstate shipment.

In making this ruling today Attorney General Owen extends the power of local sealers in as much as cheese makers have denied sealers the right to inspect all packages.

The ruling was entered into the have started on their journey out of the state, they are subject to our laws," says the opinion, "and come clearly within the duties and powers of the sealers of weights and measures to regulate them in the same way as they do other articles of food and it is their duty to enforce the law."

Miss Williams left Washington some time ago aboard the yacht Niagara as a guest of Mrs. Leister on a trip around the world. The Niagara is now at Southampton waiting for Mr. Leister to join the party.

Mr. McCombs has been abroad since almost immediately after election getting a rest. He is the most prominent possibility for ambassador to France, to succeed Myron T. Herick.

DIAZ INJURIES NOT REPORTED SERIOUS IS IN A HOSPITAL

Attack Made Upon Life of Huerta's
Opponent in City of Havana
Last Night.

[BY ASSOCIATED PRESS.]

Havana, Cuba, Nov. 7.—That the attack made upon the life of General Felix Diaz, the former Mexican general, who was Huerta's opponent at the recent presidential election, last evening was a political plot not seems certain by the authorities who are investigating.

Stabbed in Neck.

General Diaz and a party of friends were walking on the streets when the attack was made. While his assailant made several desperate attempts to reach his victim's heart with a long knife, he succeeded in only stabbing him severely in the neck and shoulder.

Is Recovering.

General Felix Diaz recovered his composure today at the hospital to which he was taken for surgical treatment after he had been wounded in the neck by the attack last night by an unknown Mexican.

All that Diaz could tell about the incident was that he and his companions were listening to music played by a band in the Plaza Promenade when the electric lights were suddenly extinguished and he was attacked. He asserted he was not injured, but he was unable to account for what happened afterwards. His wounds are not serious.

Elder Diaz Shocked.

Paris, Nov. 7.—Madame Porfirio learned today of the attack of General Felix Diaz. She said General Porfirio Diaz was greatly shocked by the occurrence and she had to break the news to him as gently as possible. Madame Diaz said her husband would not say anything for publication, but he would follow the rule laid by himself not to give any interviews.

Diaz Arrested.

General Felix Diaz was arrested here today and accused of shooting Pedro Guerrero, the young Mexican wounded by a bullet during last night's altercation, in the course of which Diaz was wounded slightly.

Guerrero Mortally Hurt.

General Diaz is said to have brand the revolver in one of his companions after he had shot Guerrero, and had seriously wounded him. Guerrero was the man who had stabbed Diaz with a knife. His condition is serious.

The jury had been out all night and played with the cards and poker chips that had been introduced in evidence. Webb was arrested October 18 in a gambling raid conducted by the chief of detectives. Six of the men arrested with him pleaded guilty, but Webb insisted upon a jury trial. He said he was innocent and his arrest was a political move to embarrass his brother, States Attorney Webb, who has been conducting a grand jury inquiry into municipal graft in East St. Louis.

The American Board is represented at the centennial celebration by a delegation headed by its president, Samuel B. Capen of Boston.

TO SETTLE STRIKE BY ARBITRATION IS THE REPORT TODAY

Governor Decides to Use Diplomacy
Instead of Force in Indian-
apolis Troubles.

[BY ASSOCIATED PRESS.]

Indianapolis, Ind., Nov. 7.—Indianapolis will not be placed under martial law and the entire state militia that was brought here yesterday for strike duty will remain in its present quarters as long as there is a possibility of settling the street car strike. This announcement was made by Gov. Ralston after he had conferred with both sides to the controversy early today.

By Arbitration.

"I am very hopeful of having this trouble settled by arbitration," said the governor, "and as long as there is a possibility of bringing it about I shall not place the troops in control of the city."

Recognition of Union.

The governor yesterday and last night was trying to bring about a settlement of the strike through the public utilities commission which is acting as an intermediary. The recognition of the union seemed to be the chief contention.

Military Men Busy.

While the conferences for a peaceful settlement of the strike were on, the military authorities were busy with plans to take charge of the situation if the negotiations between the strikers and the street car company failed. It was announced at the capitol that the soldiers would not be ordered on the cars, but they would be used to quell any rioting and preserve order.

All Quiet.

Everything was quiet on the streets this morning and there was no demonstration made of any consequence against the troops during the night. Robert I. Todd, president of the traction company, said no effort would be made to start the cars until the governor gave the word.

After the labor leaders today had refused a proposition to what the street car company had agreed as a basis for settling the strike, Gov. Ralston drew up a new statement and submitted it to the company and the labor leaders. The new statement differs from yesterday's plan for a settlement in that it does not demand the surrender of the union charter and the withdrawal of outside labor leaders from the state. Gov. Ralston is hopeful of the success of his plan in ending the strike which began a week ago tonight.

Government Takes Hand.

Washington, Nov. 7.—Cleveland S. Moffitt, special agent of department of labor, left today by direction of acting Secretary Post for Indianapolis to bring about arbitration of the street car strike there.

Elberth Stewart, another representative of the department, already is there.

FREE TOLL SERVICE NOT LAW'S INTENT

Railroad Commission Dismisses Com-
plaint of Etrick Telephone
Company.

Madison, Wis., Nov. 7.—In ordering the dismissal of the complaint of the Etrick Telephone company of Etrick, today the railroad commission declares that it never was the intention of the physical connection law that free toll service should be given to any party. The Etrick company claims that physical connection between its system and the toll lines of La Crosse Telephone company is made through the Western Wisconsin Telephone company's board at Galesville, but makes no charge for messages going through Galesville to La Crosse. "The Etrick company asks to be placed on the same basis as the Western Wisconsin company. The commission holds that the La Crosse company is the owner of the toll line and that under the circumstances the appointment of the toll revenues is no criterion for judging the reasonableness of charges for use of connecting company during the toll line facilities, but have no proprietary interest therein." The commission dismissed the complaint.

SUFFRAGETTES SEEK AID OF THE LIBERAL PARTY IN ENGLAND

Compromise May be Reached Which
Will Ultimately Give Women
Right of Franchise.

[BY ASSOCIATED PRESS.]

London, Eng., Nov. 7.—Decided efforts are being made to induce the British government to come to an agreement with the suffragists whereby a measure for the enfranchisement of women can be made a part of the official program of the liberal party. Some of the suffragist leaders declared that this movement has obtained considerable headway. A significant feature of the conference has been the presence of Mr. and Mrs. Frederick William Paterson-Lawrence, who left the fold of the Women's Social and Political Union at the request of Mrs. Emmeline Pankhurst, taking with them their paper, "Votes for Women."

It is known the government will consider only a compromise based on unqualified repudiation of the Women's Social and Political Union and all its militant methods.

PUBLIC MORALITY PROBLEM FOR STATE

Speaker at Purity Congress at Minne-
apolis Urges a Commission on
Morals for Every State.

[BY ASSOCIATED PRESS.]

Minneapolis, Nov. 7.—"Public morality is a problem with which the states must deal," said Herbert S. Gernert of New York, who delivered the principal address at the morning session today.

The federal government is doing a great work in this field, but it is seriously handicapped by the limitations of the constitution, the large territory to be covered, and the extent to which the evil has grown," he continued. "The state police powers are unlimited, while the outlay by each to control the evil would be comparatively small."

Need Morality Safeguard.

"Public morality is not unlike public health, public business, or public safety in the institutions which must control it. In our plan of government this duty devolves upon the various states and today we have our departments of health, our state commissions of railroads and of insurance, and our boards of public safety, but not so with public morality. We have left this field practically untouched, and yet that is by far the most important of all. In many of the states the laws on morality are very lax, inconsistent and unclear. It is often difficult and sometimes quite impossible to have some of them enforced, and yet no one pays much attention to this absurd state of affairs."

Commission of Morals.

"A commission of morals should be established in each state to be presided over by a commissioner whose duty it would be to take cognizance of all the moral problems of the states, to aid in the enforcement of all laws directed against vice, and to secure the best moral conditions in factories, schools, dance halls and other places. The commissioner should be given the power to appoint a deputy, a chief counsel, a chief clerk, prosecuting attorneys and such other help as the duties of the department require. The commission should be a permanent division of the government and maintained at all times by it."

"The states should also consolidate their laws on public morality and in so doing make them consistent, feasible and just."

He said that where he made a study of social and economic conditions.

"In the Orient no individual dares to stand alone. The caste system is a social system. India, there would be chaos. The impact of American individualism upon the crystallized society of the Orient forms one of the greatest problems of the world as ever faced and it will prove either the savior or the tragedy of the twentieth century."

DEMOCRATIC CAUCUS PLANS FOR RESCUE OF CURRENCY BILL

Administration Leaders Planning to
Take Measure Out of Hands
of Senate Committee.

[BY ASSOCIATED PRESS.]

Washington, Nov. 7.—With the administration currency bill amended by a coalition of republicans and democrats in the senate banking committee, administration forces today planned to make one more attempt to unite the committee democrats.

Democracy leaders decided today that unless a bill meeting the approval of the administration is ready by Monday a caucus will be called, the measure taken from the hands of the committee and made a democratic caucus bill.

Administration senators contend that the changes written into the bill so far in the committee completely alter the theory and purpose of the measure as originally framed.

Enough democratic senators have petitioned Senator Kern, majority leader, to call a party conference to insure such a meeting. Mr. Kern has notified all absentees to return to Washington.

The senators who have petitioned for the conference want to have democrats of the banking committee instructed to bring out the report on the bill at a certain time.

Committee May Agree.

An entirely new lineup in the senate banking committee with majority behind the administration appeared today when, by a vote of 7 to 5, the committee reconsidered its action reducing the number of regional reserve banks to four.

Senators Keen and O'Gorman, the democrats who had been voting against the administration proposals, cast their votes with the other democrats. Senator Hitchcock, democrat, joined the administration forces and the question was reopened.

I had a letter from the quarry today saying that the remaining seventy cars can be shipped any time. It has been quarried next week, that is to be used in the erection of the dome. Work on the dome has been delayed almost two months because of a strike between the bricklayers and Federated Trades Council calling the engineer who operates the hoisting machine off the job. He came back and reported for work early in the week. The bricklayers insisted that the marble setters should join their union. The information obtainable here indicates that this position was abandoned."

COMMISSION ORDERS A FURTHER HEARING LOCAL WATER CASE

OBJECTIONS OF JANESVILLE WATER COMPANY IN PURCHASE CASE ARE OVER-
RULED.

RACINE CASE APPLIES

Jurisdiction and Position of Railroad Commission Upheld by Supreme Court—Hearing Nov. 24.

The objections of the Janesville Water Company to the purchase of their plant and property by the city of Janesville under the public utilities law, as filed with the state railroad commission have been overruled by the commission which has ordered a further hearing and investigation of the Janesville case, the date of which being Nov. 24 at the office of the commission and Madison.

In the decision of the commission arrived at on Thursday, a copy of which was received by City Attorney W. H. Dougherty today, it is set forth that the position and contentions of the railroad commission were fully upheld by the Wisconsin supreme court in the Racine water works case, and that this decision is applicable in all its points to the Janesville situation.

The decision of the railroad commission in the Janesville matter contains, in addition to the order for a further investigation, a brief history of the case in its course before the commission and a summary of the objections filed by the attorneys for the local water company. As it is a complete vindication of the attitude and position taken by the city administration in the matter, it is given in full below:

On the 23d day of January, 1913, the city of Janesville filed notice with the Commission setting forth that the said city had determined to acquire the water plant of the Janesville Water Company, which determination was made by the votes of a majority of the electors of the City of Janesville, voting on said question at the general spring election held in the said city on the 2d day of April, 1912, at which election the question of the purchase of such plant was duly submitted, and that the Janesville Water Company was at the time of said election and determination operating under an indeterminate permit under and in accordance with the provisions of the Public Utility Law, and has by reason of the acceptance of such permit consented to the taking over of such plant by the said City of Janesville.

Upon the filing of said notice the hearing was fixed for the 8th day of May, 1913, and due notice of such hearing given to all parties interested, in accordance with the provisions of Chapter 499, Laws of 1907 and acts amendatory thereof and supplementary thereto.

"The Janesville Water Company on the 28th day of February, 1913, filed with the Commission objection to the proceeding on the ground that the Commission has no jurisdiction thereof for the reasons:

(1) That the City of Janesville, at the general spring election held in said city on the 2d day of April, 1912, did not determine to acquire the water plant of Janesville Water Company, nor the property of said Company, nor the public utility, but that the contrary of the question that was submitted to the voters at said election and the only question then or at any other election voted upon was as follows: "Shall the City of Janesville purchase the Janesville Water Company?" and that the matter of the acquisition or purchase by said City of the Water Plant or property of said company has never been submitted to a vote of the electors of said City of Janesville, as required by law.

(2) The matter of payment by the City of the just compensation to which the Janesville Water Company was entitled for the property proposed to be taken has never been considered, voted upon or determined by the electors, or by the common council of the city, as required by law.

(3) No fund has been provided by law, or by a vote of the electors or of the common council of the city, out of which just compensation may be made to, or secured by, the Janesville Water Company for the property proposed to be taken, as required by law.

(4) The City of Janesville has not, at any time, either before or since the giving of notice of its option to purchase and acquire the property of the Janesville Water Company, made provision for the payment of just compensation therefor required to be made by Sec. 12 of Art. I, and by Sec. 3 of Art. XI of the Constitution of the State of Wisconsin.

(5) The City of Janesville, at the time the election was held, and at the time of the adoption by its common council of the resolution and notice served upon said Janesville Water Company as above stated, was without power, under Section 2 of Article XI of the Constitution of the State of Wisconsin, and now is without power to incur the indebtedness it proposed to incur in this proceeding.

It stipulation of the parties, the hearing was continued until the 10th day of June, 1913. At the time of the hearing it was agreed that the objections should be considered before the offering of any testimony in the proceeding.

The City of Janesville was represented by W. H. Dougherty, City Attorney, and the Janesville Water Company by M. G. Jeffris and C. A. Oestreich, its attorneys.

The objection interposed to the jurisdiction of the commission raises the same questions that were presented in the Racine case (11 W. R. C. R. 243). In the recent decision in David G. Jones vs. City of Racine, the supreme court affirmed the position of the commission and disposed of the objection adversely to the contention of the Racine Water Company. The reasons assigned by the court are here applicable, and the ruling in that case is controlling here.

Under the circumstances the objection is overruled and further hearing and investigation will take place at the office of the railroad commission, in the City of Madison, at 10 o'clock a. m. on the 24th day of November, 1913.

Dated at Madison the 6th Day of November, 1913.

The cars jumped the track at the junction of the two roads at the town last evening for Mr. and Mrs. Evansville cut-off, one of the cars being thrown across the Northwestern tracks, delaying the Northwest limited, arriving here between five and seven, and the Duluth special, before the cars could be righted and run off the crossing.

Does This Old Fossil Know More Than Nature?

Can't you realize that your body contains every device necessary for mixing, even manufacturing all the chemicals required for every need?

Nature made a little chemist in your brain that knows more about what is needed in your body than anyone else. It sends out directions and power for every part of your body through the spinal cord. If one of the many little bones of your back gets out of place, it will pinch this delicate nerve fibre and prevent some organ from receiving its particular orders.

You can take drugs to help that organ, but until the back is straightened out and it again receives the full nerve force, that organ cannot perform the function it was intended to.

Chiropractors don't try to beat nature at its own game. Their duty is to put back into place any bone of your spine that has been wrenched out of place.

Sports Snap-Shots

A common everyday sort of chicken, or hen, all but broke up a football game at Chicago not so very long ago. The hen was tripping easily across the gridiron with no thought at all, other than to get on the other side, when a big husky halfback with the ball tucked under his arm came rushing down upon her. The hen, being a lady, merely ignored him and was passing on.

without a remark when the big brute tripped on her, fumbled the ball and let quite a few yards to the opposition. In fact, a member of the other team recovered the fumbled ball and was able to get away to a touchdown while the other players were wondering what it was all about. The losing team declares that the score should not count, especially as the hen was off side when she tackled their runner.

Willie Ritchie's reasons for raising the lightweight limit are surely altruistic ones. Apparently Willie is anxious to give all champions every chance to cop the belt from him and his latest stunt of lighting at 135 pounds ringside will make quite a difference to a whole lot of fighters. "I never considered 133 pounds the lightweight limit," said Willie the other day. "There is no rule either in America or England that gives that limit. The first American title holder, Jack McAuliffe, fought at 135, 137 and even 140. Lavigne who succeeded McAuliffe, lost to Frank Erne at 135 and Frank Erne was knocked out by Joe Gans at 133 pounds. Then Bat Nelson made Gans do 133 when Gans was almost bedridden, and later Volgaist played the same trick on Nelson, making him fight at 133 limit. But now that I'm champ I ought to have the right to set the limit back at 135 if I please."

THIRD WARDS DEFEATS SECONDS THIS MORNING

In an exciting gridiron battle this morning at the Driving Park the Third warders downed the Seconds in a stiff struggle, the final score being 13 to 0. Frank Lee scored twice on long runs, while McDermott registered the third touchdown. All goals were missed.

Tight playing was the feature of the contest. Tuckwood, the star from the Second warders, played sensationally getting away for long runs only to lose his feet, and be downed within striking distance of the goal line. A large crowd saw the game. On both elevens there are stars of the high school sophomore class, who will by next year develop into material for the first regular high school eleven.

BELOIT-RIPON CONTEST OF INTEREST TO MANY

At least one hundred football followers from here will go to Beloit tomorrow to witness the annual struggle between Beloit and Ripon colleges. Both elevens are confident of victory. The northern school claim to have one of the strongest teams developed in many years, and a royal battle is expected. Local fans are looking for Euler to shine in this contest, if he gets the chance to play any length of time. It is alumni day at Beloit and one of the largest crowds in the history of the college is expected to be present on the side-lines when the referee's whistle is blown.

SATURDAY FOOTBALL GAMES DECIDE GRIDIRON TITLES

[SPECIAL TO THE GAZETTE.] New York, Nov. 7.—The football season, short at the best, enters on its final stage tomorrow, and within the next three Saturdays the three big games of the season will be played—Harvard vs. Yale, Yale vs. Princeton and the Army vs. Navy. They are the biggest games, but not necessarily the most interesting, for the Pennsylvania-Cornell battle comes on Thanksgiving Day, and whatever the quality of the football in this game, and the records of the teams there is always lively action and variety.

The big game tomorrow will be the Harvard-Princeton contest at Princeton. Yale will take on Brown at New Haven and Pennsylvania will have the strong Dartmouth eleven as an opponent on Franklin Field. Another attractive item on the day's menu will be the intercollegiate battle at Ithaca between Cornell and Michigan.

Fights Scheduled for Tonight. "Knockout" Brennan vs. Johnny Howard, 10 rounds, at Buffalo. "Knockout" Brown vs. Johnny Dundee, 10 rounds, at New York.

Fashion's Dictates Are Imperative

Unless we keep abreast of the times and adorn ourselves in the latest and most authoritative creations, we soon become conspicuous and unattractive. But "following the fashion" does not necessarily mean rushing in headlong to adopt every new and uncalled for, extreme such as occasionally presents itself.

To the person of intelligence and refinement to be dressed in style means to be dressed in GOOD TASTE, wearing only those things which conform to one's individuality and which are proven by the common sense of the majority as being both beneficial in appearance and artistically beautiful in design.

DEATH AND TAXES.

It is an old saying that there's nothing quite so sure in this world as death and taxes. There is a distinction, however, for an element of hope enters into the former. Hope that the date may be long deferred, and hope of immortality in the hereafter. The tax proposition is entirely different. It makes its appearance on scheduled time, with an ever increasing volume, with no ray of hope to penetrate the gloom of an extravagant future.

The taxpayers of Wisconsin, who are unfortunate to have an income that is not beclouded by agricultural pursuits, are just now cheered by the statement from headquarters that they will have the privilege of paying into the state treasury two hundred thousand dollars more this year than they paid last year, and this is only one item, for the state assessment is around eight million dollars in excess of last year.

The federal corporation and individual income tax, is yet to come, and by the time the tax-burdened people get through contributing, some of them will feel that death would be a welcome release.

The array of taxes, which now confront the American people, and especially the people of Wisconsin, is the culmination of the reform epidemic, which has cursed us for the past few years. We not only invited the disease, but cultivated it, in the most virulent form, and really have no cause for complaint.

Experience is really the only teacher that commands very much attention and we are now taking a few lessons in this valuable school. The knowledge acquired is proving a bit expensive, but if we profit by it, it may be worth the money.

POLITICAL ABSORPTION.

Analysis of the late election figures indicate that the progressive party is gradually being absorbed by the two old parties. President Wilson fills the bill, so far as progressive ideas are concerned, and he is the democratic party today.

The republican party is gradually recovering, and many progressives are coming back to the fold. There is no occasion for a third party, and never was. Democracy will retain control until the spasm of reform virtue has passed.

In discussing the party question, William F. McCombs, chairman of the National Democratic committee, said the other day:

"The predominance of the regular republican members in the New York state legislature verifies the prediction which I made after the presidential campaign last fall. It is remembered that I said at that time that the republican party was not dead and that it would not be secondary to the progressive movement. My idea was and is that the republican party as such will absorb much of the progressive party's strength throughout the country and that the democratic party will take what remains. The republican party will, of course, be forced to revise many of its practices.

cratic administration. Inasmuch as the present administration is progressive, I look for great accessions from the progressive party to the democrats. So far as the state of New York is concerned, the results of the election are due to a very mixed and unusual series of circumstances which in no wise truthfully reflect the attitude of the democrats of the state and nation."

TOBACCO IS KING.

Farmers throughout the great tobacco belt of Wisconsin are realizing this year that the "weed" is practically the crop in the southern section of the state this year. Early in the season they were informed on all sides that the so-called Paul law, relative to the contract and purchase of the crops, was going to work a hardship on the farmer. The price of tobacco, however, has advanced to such an extent that the United States into the buying field sent the prices sky high and they are realizing returns from their crops they had not expected. Evidently the Paul law is not such a dangerous law for the growers after all.

THE CORN BELT.

There is no reason in the world why Rock and the surrounding counties of the southern section of the state, can not be the banner corn districts of the United States. When anywhere from a hundred and more bushels of corn can be grown on a single acre, think of the results that can be obtained when planted upon a large scale. The contest which the Gazette has been conducting during the past summer, has demonstrated there is no real reason why corn can not be made one of the staple crops of this section with large profits for the growers. Rock county is certainly in the corn belt if the results shown on the samples submitted for the various prizes offered by the Gazette are any criterion of the crop as a whole.

Chauncey M. Depew says the American girl is not so pretty now as she was fifty years ago. And Mr. Depew's beauty seems to have faded somewhat during that time also.

Probably, even if the news that Sulzer has joined the progressive party reaches him in South America, it won't prevent the colonel from having a bully time.

Perhaps if an enthusiastic study were given the income tax rules as is bestowed upon the baseball rules, more people would understand them.

Professor Munsterberg says women do not change their minds. Evidently the professor never saw the exchange desk of a dry goods store.

An enquirer wants to know what girls who wear watches on their wrists do when it is time to wash the dishes. They don't do anything.

In these days the most lordly senior would not disdain being the foot of the class that can kick a goal from field.

Perhaps General Felix Diaz would not take such a handsome picture as he does if he consented to have an interview with General Huerta.

The returns from the Mexican election show that Candidate Felix Diaz ran well—to an American consulate.

Of course Huerta is deeply grieved to think that he will have to keep on being president.

The worst is yet to come, Nat Goodwin announces that he has finished his book.

PRESS COMMENT.

Small Comfort. Well, we won't have that old political canard of "no state tax" sprung on us this year.—Monroe Journal.

By Automobile Owners.

If the government would only expend the money derived from the income tax on the construction of good roads, the tax would probably be paid more cheerfully. The matter is now being agitated in congress.—Freeport Journal Standard.

Amen!

Betting on an election is no argument. It is generally a weakness of a fellow's cause and often a mere bluff. But it is also a sign which indicates which way the political breezes blow. It gives much temporary comfort to those who indulge in it. But the joy is of short duration and is followed usually with disaster and pain.—Milwaukee News.

Nearer Home Too.

Because of the activities of American missionaries, it is said that crime has been reduced 75 per cent in one district in India. And what a wide and fertile field there is in Chicago for missionary endeavor in this direction.

Pouring Oil on the Flames.

Did you ever hear of anything more extraordinary than for the vice president of the United States to declare publicly that the president of a friendly neighboring republic is a murderer, a traitor, and beneath the notice of respectable people? Read Mr. Marshall's interview as printed in The Herald today, and ask yourself if it is any wonder that Mexico is getting bitter minded about the manner in which the "negotiations for peace" have been carried on; and if it is any wonder that European nations are so founded at the crudeness of our diplomacy.

Could anything be so well calculated to stiffen the backs of our high spirited neighbors on the south as such rough talk as this which the vice president of the United States hands out from the car steps, at the most critical moment of our recent history?—El Paso Herald.

Sex Education for Parents.

What they call sex education is running through the country like wild fire. Specialists deliver lectures in colleges. It is pressing its way into the public schools. Some of the churches offer youthful material for it. A few states have introduced clinics into their laws. The Chicago schools have started a series of permanent lectures upon the inviting subject. It has come to stay—for a time. The time will be short. If this branch of human knowledge were taught in the family, there would be no excuse for it in schools, colleges, newspapers or law books. Parents who know their duty keep their children out of the new classes or lecture rooms now. Those who do not should be taught, instead of the children they neglect. Parents, present and future, will profit most by the epidemic. Those

who lack knowledge will be warned to acquire it; those who lack sense of duty will be stimulated to it; to keep their children out of the public classes. This educated generation will be fitted to teach its own in the next. The neglected remnant will dwindle as time passes, until only a diminished fraction of children is left to be taught in public school or settlement house what should come to them in the privacy of home. That is the one comfort of it all.—Minneapolis Journal.

COUNTY IS LIABLE INSTEAD OF TOWN

Persons Suffering Injuries Result of Defects in State Highway Should Sue County.

Damage suits brought by persons who have suffered injuries as the result of defects in a state highway should be filed against the county instead of the township according to the opinion of Attorney General Owen, directed to District Attorney C. S. Jackson, Roberts, of Balsam Lake, Polk county. Heretofore such suits have always been brought against the township, but with the inauguration of the new system of highway building in Wisconsin the responsibility for insufficiencies in the state and county roads lies with the county. Damage suits of this character are quite frequent in the circuit court for Rock county.

Heater Explodes: A gas water heater at the Fred Cookson home on Court street became over-ventilated last night and exploded. The fire department was called out but no damage was suffered.

Freedom in Shopping:

Nobody ever coaxes another to buy here — people who know The Big Store best go about looking, simply looking and enjoying the sights, knowing that nobody will bother them—they ask questions and are courteously answered, just as if no business were going on—and yet this is a busy store. This freedom—the absence of restraint—the easy, at home feeling is just the thing we constantly invite on the part of our visitors. We are determined that this shall be to the people more than a store.

AWARD NO DAMAGES TO NICHOLAS REILLY

Jury Gives Verdict Favorable to Defendant Charles Thompson in Assault and Battery Action.

Verdict favorable to the defendant was rendered late yesterday afternoon by the jury drawn in the case of Nicholas Reilly versus Charles Thompson, an action for damages for assault and battery. Early in the month of August, Thompson pleaded guilty in the municipal court to making an assault upon Reilly, making plain, however, that he did so in self-defense. Reilly then brought action in the circuit court to recover \$500 damages. Immediately after the close of the trial of Reilly versus Thompson, the court took up the case of Frank Bennett versus Albert Hafeman, both parties to the suit being residents of the town of Plymouth. All testimony and arguments of attorneys were completed and the case was sent to the jury at 11:45 o'clock. Bennett seeks to recover the sum of \$150, the price of a horse which he sold to Hafeman. The latter claims that the animal was vicious and represented that it was vicious and bit off one of his fingers. He refuses to make payment. T. S. Nolan is counsel for the plaintiff and J. J. Cunningham for the defendant. Adjournment of the court was taken until two o'clock Monday afternoon and the veniremen not yet drawn on a jury have been allowed to go home until that time. The cases by the day calendar for Monday in their order are as follows: Jackman vs. Jones, Allen vs. Kemmet, Blum vs. Rosenberger, Mercantile and Ad. Investment Company versus Freeman versus Kraepelin, Kraepelin vs. Lufkin, Alm vs. Schultz, and Kraft vs. Lidke.

RUNAWAYS RETURNED TO THEIR OWN HOMES

Mother of Thomas Peterson and Sister of Harold Anderson Take Them to Chicago on Release.

Thomas Peterson and Harold Anderson, the sixteen year old Chicago boys who ran away from home on Wednesday and were picked up at a railway station here late that day by the police, were returned to their homes last evening, the mother of Peterson and the sister of Anderson coming here for them in response to information given to the Chicago police department by the local police force.

It was through a mere stroke of good fortune that the relatives of the boys were able to return with them. Up to the time they arrived in the city, which was about four o'clock, nothing had been heard from them by the police, and a few minutes before the boys had been released to "beat" their way home the best way they could. When the mother of Peterson and the sister of Anderson came, Patrolman Champion at once drove to the new yards in the hope of overtaking them before they boarded a train. After a search they were located in the yardhouse. The boys had arranged to leave for Chicago on a freight at 4:45 o'clock, and the train was then ready to start. As nearly as can be ascertained the only reason Anderson ran away from home was that he did not like the home cooking. He said he would go where he would get what he wanted, and his father had him go, whereupon he went. Peterson, it seems, only went along for company.

FOUR MEN ARE HURT IN BRIDGE ACCIDENT

Dredge Bucket Strikes Loaded Car on Tramway Throwing Workmen Into River.

Four men, Harry Sandy, Lewis Otmer, both of this city, J. M. Meighan, Madison, and Joseph Loughton of Minneapolis, narrowly escaped serious injury on the Milwaukee street bridge shortly after two o'clock this afternoon when the big dredge struck a loaded car on the tramway above the cofferdam on the east side, hurling the car and the four men who were pushing it, into the dam fifteen feet below. The bucket knocked the car off the track, breaking the foundations. Loughton received a heavy blow on the head by falling timbers and was taken from the water in an unconscious condition. The coffer dam has been filled up with a few feet of the water line and there was no danger of the men drowning. Other workmen wedged under the piling timbers and examination by Dr. Fred Welch showed the leg may be fractured. Meighan was severely bruised and Sandy escaped with minor bruises.

COMPLETE CANVASS OF LEAF TOBACCO

Census Bureau is Not Ready to Report Quantity on Hand on October 1.

[SPECIAL TO THE GAZETTE.] Washington, D. C., Nov. 7.—Director of the Census, announced the completion of the canvass for the collection of the statistics of the quantity of leaf tobacco on hand October 1, 1913. These statistics are collected as of April 1 and October 1 of each year. The dealers and manufacturers are allowed by the law thirty days in which to make the reports. There are, however, always a number who, either unintentionally or wilfully, neglect to make the census reports until they are repeatedly reminded of the requirements of the law, and in some cases it has been necessary to threaten to enforce the penal provisions. Under these conditions, it has always been difficult to obtain the reports for all of the establishments carrying tobacco. For the report of April 1 the canvass was not closed until May 22. The greater rapidity with which the work has been completed for the canvass of October 1 is due to the more satisfactory co-operative arrangements that have been made with the Bureau of Internal Revenue of the treasury department. Heretofore it has been necessary for the bureau of the census to send a number of clerks and agents into the field to collect, by personal visit, the returns for the recalcitrant establishments. This greatly delayed the work because it was impossible to appoint a sufficient number of agents to work only a few days in order to collect the statistics. It also entailed a great deal of expense. The bureau of internal revenue has arranged to allow the collectors in the different districts to call on the recalcitrant establishments, either by telephone, letter, or division deputies, and request them to make the census reports without delay. This had added no additional expense to the work of the collectors, and has greatly facilitated the collection of the statistics and made a material saving to the federal government. Director Harris states that it is impossible at present to give a preliminary total of the quantity of tobacco on hand October 1. The tabulation, however, is proceeding, and he hopes to make the report public on or before November 15. The report for the first of April was made public on May 26.

CONSUL CHESBROUGH WILL TALK ON WAR

Former Beloit Man to Address Twilight Club on War in Balkans—Familiar With Its Campaigns.

Ralph H. Chesbrough, a former Beloit man, until recently in the United States consular service at Constantinople and recently appointed vice consul general at Beirut, Syria, will address the members of the Twilight Club next Tuesday evening on "The Bulgarian War and the New Map of Europe." Consul Chesbrough has been all over the territory disputed by the Turks, Greeks, Bulgarians, Servians, Montenegrins and Roumanians, and is well qualified to talk on the subject assigned to him. The interest that the state department takes in his speeches may be deduced from the fact that he has been cautioned not to express any opinions as to politics in the Balkans. This means that address will be confined to facts and figures, which should be highly illuminating. A very close censorship was exercised upon all press descriptions.

Lillian Russell's Stage Record.

In response to a request for a brief record of her professional career, Lillian Russell writes: "My family name was Leonard, and my respected dad was a newspaper man in the days when a newspaper man was literally a man who made newspapers. He owned the Clinton Herald, wrote it, set it up, and ran it off on a hand press. I might say, therefore, if I didn't remember Dr. Johnson's remark about puns, that he was the original press agent in the family. "My first appearance on any stage, except that of the world, was at Chickering Hall, Chicago, where I went on for charity—and I think, came off for the same cause. I sang Sullivan's 'Let Me Dream Again,' I remember. Wasn't that baring my bosom to the spears and arrows of the critics? "It seems to me that the fact that 'Lady Toad' opened the Casino may be taken as a good omen. You know it was at the Casino that I scored my first successes. I went to the Casino direct from Pastor's—Tony Russell gave me the name of Lillian Russell because there were so many L's in it—and I sang in 'The Sorcerer' and 'The Princess of Trebizonde.' Afterward I went to Europe, but returned to the Casino just as soon as I got back to America. During the ensuing years, I was in the comic operas of 'Nadly,' 'The Brigands,' 'The Queen's Mate,' 'The Grand Duchess,' 'Poor Jonathan,' 'Apollo,' 'La Cigale,' 'Grotto-Grotto,' 'The Mountebanks,' 'The Princess Nicotine,' 'Erminie,' 'The Trifling,' and a few others. I remained at the Casino until I went starring, and as you are aware I quit stalling to go with Weber and Fields. I've been appearing in straight comedy since. My appearance in 'Lady Toad' was my peculiar straight comedy acting of Lady Toad in this delightful melody amusement that first suggested the idea to the critics that I was an actress as well as a comic opera star. "Tony Pastor discovered me as a serio-comic singer in the varieties, and the Arensons and Canary and Lederer first saw me as a comic opera singer. Weber and Fields first declared me as a theatrical satirist, the Shubert's first propagated me as a musical comedy celebrity. Charles Frohman first starred me as a real actress, and John Cort is responsible for my present advent."

REPORTS FAVORABLY ON CYCLE FACTORY

Directors of Commercial Club Ponder Action on Motorcycle Factory for Locating in Janesville.

A meeting of the directors of the Commercial club was held at the Myers Hotel this noon to listen to a report of the special committee which went to Chicago yesterday to investigate further a motorcycle factory. The report was quite favorable and further action was postponed awaiting the arrival of an inventory of the plant, which is expected in a few days. The committee consisted of Joseph Weber, Frank Cook, L. McNamara, President Jas. S. Field and Secretary F. E. Lane. Nothing further in business came before the meeting.

OBJECTS TO TRAVEL, HORSE BREAKS AWAY

An Animal Belonging to B. K. Godfrey Jumps from Box Car in Which He Was to be Shipped.

Yesterday morning a horse belonging to B. K. Godfrey, jumped from a moving box car on the S. L. Paul train and for three hours the railroad men and police searched the city in vain for the missing animal only to find that the horse had sense enough to seek shelter at the west side hitch barn. Mr. Godfrey was moving his stock to Minneapolis and had loaded a car of horses at the gas house switch to the taken across the river to the freight yards. Somewhere during the journey the horse gained his freedom from the freight car and disappeared. When the train crew opened the door at the yards they found the animal missing and started a wide search for the horse. After three hours hard work of exploring the country north of the city, the horse was discovered at the hitch barn. The stable men reported that the steed had come to the barn on a run and was given shelter.

RE-ENACT THE TRIAL OF ROBERT EMMETT

What proved to be one of the most interesting meetings of the Ancient Order of Hibernians in many years took place last evening when a re-production was given of the trial of Robert Emmett. Matthew H. Carpenter of Milwaukee took the part of the English judge and O. L. Boyle of Milwaukee impersonated Robert Emmett, the Irish patriot. The acting and orations were very good. Addresses were made by the Rev. Dean E. E. Reilly and State President J. P. Callan of Milwaukee. The local lodge initiated a large class of candidates. The program was followed by an enjoyable smoker.

ART LEAGUE MEETING

A CHILD'S LAXATIVE IS "SYRUP OF FIGS"

They love to take it and it doesn't harm the tender little stomach, liver and bowels. If your little one's tongue is coated, it is a sure sign the stomach, liver and bowels need a gentle thorough cleansing at once. When your child is cross, peevish, listless, pale, doesn't sleep, eat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again. Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. PONDEROUS PERSONAGES

SIR WALTER RALEIGH
By GEORGE FITCH, Author of "At Good Old Slawash."

SIR WALTER RALEIGH is the world's greatest example of what can be accomplished by politeness. Born in 1552 in a peculiarly unhealthy time, owing to the general hostility prevailing he eked out a precarious living by fighting and discovering until about 1608, when he returned from America with the price of a few weeks' board and lodging in his pockets, and while walking on the palace grounds discovered Queen Elizabeth hesitating before a muddy spot where the lawn sprinkler had flooded the vicinity.

Sir Walter had only one mantle and owed his tailor for that, but he did not hesitate. Hastily removing it he laid it on the mud and begged the Queen to walk over it. She did so and while Walter hastened to the cleaners through the alleys the Queen went back to her palace and appointed him gentleman-in-waiting, dismissed her second assistant postmaster-general and congressman from seven districts. She also sent him a new suit of clothes.

Sir Walter Raleigh was now made man, but he did not bask in society and spend his time idly driving his racing car over the common people. He continued to explore and discover with great zeal and soon became so well acquainted with America that he would find the site of New York City in a few months from any given point without a guide. He colonized several southern islands, but owing to the promptness with which the colonists

died volunteers ran out and he had great difficulty in selling enough lawn tois to found the city of Raleigh, North Carolina.

Sir Walter led a busy life for fifteen years, helping to put the royal kibosh on the Spanish Armada and fighting up and down the map of the world with great energy to the intense disgust of Spain. He discovered tobacco and introduced it in England, but was not guilty of rolling cigarettes. All would have been well for him if Elizabeth had not died. Her nephew, who took over the stock, drives and good will of the Empire, looked cold on Raleigh and declined to fall for the coat game or any other form of politeness. He stuck Sir Walter into prison where the latter lived for thirteen years writing poetry and looks and feeling for his head each morning nervous as he awoke. Finally he was released because of some skillful press agent work concerning some of the King's mines in Guinea and landed a Spanish town to show his gratitude. However, the Spanish ambassador was a friend of the king's, and this proved his undoing. He was tried for murder, arson, malfeasance in office, treason, and on suspicion of being a suffragette and was beheaded October 29, 1617, with great éclat, going through the ceremony with a grace and courtesy which endeared him to all.

Sir Walter was a perfect gentleman through all his life to all except Spaniards, and deserved a better fate.

On the Spur of the Moment

On The Spur or the Moment.

The Diary of a Bonehead.
About a month ago a party of men who live in the neighborhood attended a smoker and afterward held a liar's contest. We all lied about our incomes.

Elkins, who lives next door to me, said that last year was the best he had ever had. He cleaned up \$10,000.

Everybody knew better, but there was considerable politeness floating around in the atmosphere that evening and nobody contradicted him. Smith, who lives across the street, yawned and said that his income was always on an even \$15,000, rain or shine, while Jones, who lives down the street next to the fire hydrant, said he always made \$20,000.

It seemed to be my turn, so I piped up \$25,000. There is no use in being a piker, especially when it doesn't cost anything to be an aristocrat. Several strange gentlemen told their incomes and we all went home happy.

Yesterday a gentleman called on me and informed me that the income tax would go into effect within a few days. He explained that he was connected with the internal revenue office and was around making up his return.

"Oh, put me down for about \$3,000," I said, knowing very well that a mere \$3,000 income would exempt me.

"Not on your life," said he. "I will put down at \$25,000 a year. That is your income. I heard you say so yourself."

"What the—?" I stammered.

"Do you remember the smoker about a month ago?" he asked.

"Yes, indeed. Why?"

"Well, I was there, that's all. Good day, sir. You are down at \$25,000 a year."

Pete takes aeroplaning lessons; Maybe some day he will fly. Ma's a suffragette. Her name is on each contribution list. And she's taking on the study of the game they call bridge.

What's the matter with the bridge? Father? Oh, he's not ambitious. Doesn't care for high-toned trills; With a family of such talent.

RUN DOWN WOMEN

Find Health in a Simple Tonic.

How many women do you know who are perfectly well and healthy as a woman should be? They may not be sick enough to lie in bed—but they are run-down, thin, nervous, tired and devitalized.

Women are so scarce nowadays, and so much is expected of them, that they constantly overdo and suffer from headache, backache, nervousness and kindred ills.

Such women need Vinol, our delicious cod liver and iron tonic without oil which will create an appetite, tone up the digestive organs, make pure blood and create strength.

Mrs. (Walter) Price, Biloxi, Miss., says: "I was in a run-down condition for months. I had taken several medicines but they seemed to do me no good. Finally Vinol was recommended, and from the first bottle I began to improve until I am strong and well as ever."

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Smith Drug Co., Druggists, Janesville, Wis.

BUYING MOVEMENT
SLIGHTLY ABATED

Best of Tobacco Crop Contracted for
Within the Past Two Weeks.

At last there has come an abatement in the buying movement on the Wisconsin tobacco market. The slowing up must follow of necessity for the reason that most of the crop is contracted for and it is quite evident that the cream of the offerings is entirely disposed of. The rush is not entirely over, however, and recent sales have been made at the same high prices which marked the first scramble. Plenty of crops have been bought at 14 and 15 cents.

The high prices paid will undoubtedly have a marked effect on the tobacco situation in the state at least as far as the grower is concerned. In regard to this the Edgerton Reporter says:

"A pure gift of a million or so dollars to the Wisconsin tobacco growers is certainly not to be despised. It is mostly all outside money and it falls where it will do a heap of good. Already it is assured that the wheels of business in the tobacco growing sections will be nicely greased for the next twelve months. Bank accounts will be fattened, interest promptly paid and many luxuries indulged in that were not thought of before. That the recent activity in the market has been a game of freeze-out for the small dealers is also the Reporter's opinion."

"When the price reaches 15 cents for raw Wisconsin tobacco from the fields no one but the manufacturer can stay in the game. So when that price came to be general several of the more conservative firms began to drop out and the movement since has lost much of its force. It is only a question of a short time before the big operators will have their orders filled and at least 40 per cent of the crop will be left to take the best offer obtainable. There seems to be the same amount of late and small leaf that generally ends a strenuous market, the price of which has not yet been fixed. The most of the large crops contained more or less of this class of leaf and it will be passing around it the top price has not been paid for some of it, for in the hurry of the buying close inspection of all sheds could hardly be expected. Delivery day will tell whether our surmises are correct or not."

EMPERESS EUGENIE TOMB
MAGNIFICENT MAUSOLEUM

[SPECIAL TO THE GAZETTE.]
London, Nov. 7.—In view of the disquieting reports concerning the condition of Empress Eugenie, the widow of Napoleon III, who is said to be fading rapidly, public attention is attracted to the fact that the former empress has prepared for herself one of the most remarkable and magnificent tombs in England if not in the world, where, in the fullness of time, she will rest by the side of her distinguished husband and her only son, the Prince Imperial, whose death in the wilds of Africa has so greatly saddened her life. The mausoleum is connected with the Benedictine Abbey church at Hamborough, where the empress has her magnificent estate. On either side of the high altar of the mausoleum are granite sarcophagi containing the remains of Napoleon III and the Prince Imperial. Behind the altar is a small door leading into the monastery and over this the Empress has an arocosolium constructed, in the crypt of which the sarcophagi containing the remains of the Empress will rest.

Root, 64 lightning fires, all on ungraded buildings were reported. This number included some reported last year from August and September. The resulting damage from these fires totaled \$101,175.

Unknown causes of fires last month were 34, with damage of \$59,630. Sparks from railroad and stationary engines caused thirteen fires and damage of \$13,120. Twenty-five were caused by children with matches and mice with matches, damage being \$17,355. There were eight incendiary and suspicious fires and loss of \$10,565. Chimneys caused fifteen and damage of \$16,155.

WILL FILL A VACANCY
ON CAPITOL COMMISSION

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Nov. 7.—The appointment of another man to succeed George H. D. Johnson, who has resigned as a member of the capitol commission, is expected. The resignation was filed with Governor McGovern a month ago, but in the interim the members of the board have attempted to persuade him to remain on the board. Their efforts have been of no avail, for Secretary Law F. Porter has received a letter from Mr. Johnson saying that he cannot withdraw the resignation. The appointment would naturally go to someone in Milwaukee.

ABSTINENCE FOR THE SAKE OF OTHERS.

(The Story.)
As in a mirror, the Epistle to the Romans was a faithful reflection of one Apostolic church. The sight is disappointing. Where is the unity of the spirit? The church is rent. The converts from Judaism, taught from childhood that the prohibitions of the ceremonial law as of divine origin, deem them still obligatory. They observe them with scrupulousity. They look upon those who do not obey them as no Christians. They are censorious. On the other hand, the Gentile converts, never having been in bondage to the ceremonial law, knowing nothing of its arbitrary distinctions as to days, weeks, etc., were inclined to regard such observances as the Mosiac ritual upon them, and to look with contempt upon their brethren who were these fetters so complacently. Doctrinally, the purpose of the Epistle to the Romans is to show that Christianity is the legitimate fruitage of Judaism; that there is as little room for strife between Christianity and Judaism as between the fruit and the blossom. It is the blossom's destiny to fade and fall, that the fruit may come to perfection. A fight for Judaism is a fight for a blossom. Practically, Paul's purpose in writing is to outline those principles which will most surely conduce to peace. This is the first, and is unsurpassed, essay in irenic theology. Paul unequivocally asserts that what might be called the liberal party is in the right. He enrolls himself with it, when he says, "We, then, that are strong." But he proceeds to give certain maxims adapted to immediate use. First, as the tenets of the Judaic-Christian faction relate to matters comparatively indifferent, they are to be received with cordial fellowship. Again, the same disposition is to be steadily repressed. There is only one Judge of the conscience. But if anybody is bent on judging, let him turn his judicial spirit upon himself, and see that he does not give his brother by a selfish use of his liberty of conscience. It is possible in this way to cause the atrophy of a novice in religion, and thus undo the work of God in his regeneration. In these indifferent matters, let him keep it to himself. Parading his advanced opinions may injure his brother. The use of liberty is right, but there is a manner of using it which brings condemnation.

THE TEACHER'S LANTERN.

This inspired casuistry is of perpetual application. The question of days and meats which caused such division in the church at Rome is now a matter for antiquarians. But each succeeding era in the church has its strife over matters indifferent. We have seen the controversy in the church today touching matters that in themselves are unimportant. It will not do for us to say, "You must decide such matters for yourself." That is shirking. On the other hand, it will not do for the church to answer questions of casuistry categorically. The church is not the conscience of the individual. What shall we do, then? An appeal to the Bible is always wise. But before the mind of the inquirer the Pauline teaching of ethics as contained in the 14th chapter of Romans. In matters which are the subject of explicit command in the Word of God the conscience has no voice to whisper. The question of doing or not doing is not debatable. Obedience is indispensable. All matters upon which the salvation of the soul depends are subject of explicit revelation. Consequently the sphere of the conscience is largely in matters intrinsically indifferent. In these indifferent matters the Christian, conscious of his liberty, might, as far as he himself is concerned, take any course he pleased. But in the circle of his influence there is certainly some friend not so free as himself who would be influenced prejudicially by the full exercise of his freedom. The principle of love and self-denial call upon him within certain limits, to give up his liberty. Again, the Christian is to avoid a course which would probably give ground for criticism. He must not only be good, but seem good. He must avoid the appearance of evil. But such a course as this is demanded only in the case of a brother who is sincere. It is to be maintained with a view to finally "extricating him from his rank scruples," for "the conscience is to be won, not conquered." He is to be cured of his scruples, too, not by being induced to violate them while they remain; for he that discerneth and putteth a difference between meats, is condemned if he eat. In every community, however, there are those who take their petty whims and seek to foist them upon the conscience of others. It is one thing to acknowledge brother as a fellow-creature; it is quite another to accredit him as a spiritual teacher. Great harm has been done by allowing such persons to crowd their crude notions especially upon young believers. When such persons substitute these indifferent matters for the substance of the gospel, they are to be withstood. But the wisdom of the serpent is required in the method of resisting them, lest they prove as martyrs and win sympathy thereby.

CHRISTIAN HOME LIFE.

(A meeting in some members' home, if convenient, led by the Social Committee.)
Two generations of religion endowed Timothy and helped make him, that workman that did not need to be ashamed of his output. Thus Lois and Eunice had that profound satisfaction. The noblest achievement of any parent is to start his child on a plane intellectual, moral, and material above the plane on which he himself started. This process accelerates the maturation more than any other. It will bring universal righteousness, peace, and joy quicker than any political organization or reform propaganda, although these are not to be deprecated or deprecated. But a reformed state is built on reformed homes.

INVITED TO ATTEND NUMEROUS MEETINGS

Mayor James A. Fathers Given Invitation to Rivers and Harbors Congress at Capitol.

Had Mayor Fathers the time, inclination and means he could be kept occupied attending the various congresses and conferences to which he receives invitations. Mayor Rudolph Blankenburg has invited him to attend the Fourth American Good Roads Congress and Tenth Annual Convention of the American Road Builders' Association to be held in Philadelphia December 9 to 12, and requested that the city be represented there by three delegates, one of whom shall be the city engineer and another the superintendent of streets.

Secretary Thomas R. Shipp invites the attendance of the mayor and the appointment of two delegates to represent the city at the Fifth National Conservation Congress, to be held at Washington, November 18 to 20. The main subjects for this congress will be forestry and water power.

Because of the fact that Janeville entertains hopes of some day becoming the northern terminal of navigation on the Rock river, Mayor Fathers is most interested in the invitation to attend the tenth annual convention of the National Rivers and Harbors Congress, which meets at Washington December 3 to 5 in the New Willard Hotel. He has also been asked to appoint delegates to the con-

To Improve Pretty Hair And Beautify Ugly Hair

Harmony Hair Beautifier, a delightful liquid hair dressing, is just what it is named—a hair beautifier. No matter how pretty your hair now is, it can be made to look even better by using Harmony Hair Beautifier. To those who mourn because the hair is stringy, dull, lustreless and homely, Harmony Hair Beautifier will prove a real blessing and pleasure. It seems to polish and burnish the hair, making it glossy, silky-soft and more easy to put up in graceful, wavy folds that "stay put." It overcomes the only smell of the hair with a luscious, fragrant perfume very pleasing to the user and those around.

Very easy to apply—simply sprinkle a little on your hair each time before brushing it. It contains no oil, and will not change the color of the hair, nor darken gray hair.

To keep hair and scalp dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo gives an instantaneous rich lather that immediately penetrates to every part of hair and scalp, insuring a quick, thorough cleansing. Washed off just as quickly, the entire operation takes only a few moments. Contains nothing that can harm the hair; leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, very ornamental bottles, with sprinker tops. Harmony Hair Beautifier, \$1.00; Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way, or your money back. Sold in this community only at our store—The Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada, and Great Britain, which own the big Harmony laboratories in Boston, where the many celebrated Harmony Perfumes and Toilet Preparations are made.

As the plans for improvement of the Rock river are expected to come before the next regular session of congress it is probable that the plans will come before the Rivers and Harbors Congress for discussion.

ORFORDVILLE

Orford, Nov. 7.—Al Schrodry of Stoughton is riding in this section with Ole Tollefsrud buying tobacco. There was no school in the village on Thursday or Friday, the teachers having gone to Milwaukee to attend the teachers' convention in that city. B. G. Hungerford was taken ill quite suddenly on Wednesday. Dr. Forbush was called to attend him, and at this time he is feeling better.

Knud Skallerud, who recently returned from Merely hospital, is not doing as well as his friends would wish him to.

The many friends of Mrs. Frank Correll are extremely anxious for her condition. She is critically ill and fears are entertained for her recovery.

A number of Neva Peterson's young friends, schoolmates from the intermediate department, surprised her on Wednesday evening by going in a body to her home and spending the evening with her. A dainty lunch was served and the young people passed a very pleasant evening.

L. A. Markham, chair organizer of the Y. M. C. A., was in the village on Thursday. He reports that the effort to organize Rock county is progressing finely.

Mrs. William Keithley left on Thursday morning for Whitewater where she will attend the missionary convention held in that city on Thursday, Friday and Saturday. She goes as a delegate from the local auxiliary.

Fearful Picture of Hell.

The penal hell of the Hindu is one of the oldest known. Over it presided Yama, the subduer, a monster with huge teeth and hideous, writhing body; the very sight of which, to judge from the ancient drawings, were tortures enough. This hell is filled with snakes, monsters, insects and other infernal machinery. Red hot charcoal figures largely, with boiling oil as an infernal torture.

She Loved Him.
Single Man (to himself)—"I am sure that darling little angel loves me. She takes me into her confidence, and tells me all her troubles." Same Man (some years later)—"Consume it all! From morning till night, and night till morning, when I'm at home, I hear nothing but tales about the servants, the butcher, the butler, the baker, the candlestickmaker, and all the rest of 'em."—New York Weekly.

EAT NEW BREAD, CABBAGE, SAUSAGE, FISH, "PAPE'S DIAP EPSIN" WILL DIGEST IT ALL

Eat Without fear of Indigestion or a sour, gassy Stomach. Hczt-burn or Dyspepsia.

Do some foods you eat hit back—taste good, but work badly: ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. and Mrs. Dyspeptic, jot this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. No difference how badly your stomach is disordered, you get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear. Most remedies give you relief some-

times—they are slow, but not sure. Diapepsin is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as Pape's Diapepsin comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Put an end to stomach trouble by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

ECZEMA 25 YEARS

FACE A MASS OF IT

Says "Resinol Cured Me of One of the Worst Cases Anybody Ever Saw."

Philadelphia, Pa., Sept. 20, 1912.—"I had eczema for the last twenty-five years, and have been afflicted so badly that for weeks I could not go outside the door. My face was one mass of pimples, and not only the looks of it but the itching and burning pains I experienced were just dreadful. I lost a great deal of sleep and had to keep dampened cloths on my face all night to relieve the pain. I had become disgusted with trying different things.

"One day I made up my mind to try Resinol, and after using one jar of Resinol Ointment, and one cake of Resinol Soap, I saw the difference, and now my face is as clear as anybody's, and I certainly need not be ashamed to go out. Resinol Soap and Resinol Ointment cured me of one of the worst cases of eczema, I guess, that anybody ever saw." (Signed) Mrs. C. Hellmuth, 551 Appleton street.

Try Resinol yourself and see how quickly the itching stops and stubborn eruptions disappear. Resinol Ointment and Soap are sold by all druggists. For free trial, write to Dept. 19-M, Resinol, Baltimore, Md.

[SPECIAL TO THE GAZETTE.]

Fulton, Nov. 6.—On Wednesday evening, Nov. 5th, Mr. and Mrs. S. L. Allen celebrated their golden wedding. About one hundred and twenty friends gathered at their home on Maple Drive to help them celebrate. The house was very prettily decorated with golden autumn leaves and yellow chrysanthemums, having three large bouquets of yellow chrysanthemums for center pieces. PACKED HOUSE GREET STOCK COMPANY PLAY

Bessey Stock Company's Presentation of "Why Lindy Ran Away," Proves Best Bill of Week.

Every seat in the Myers opera house was occupied last evening at the staging of the feature play of the Jack Bessey Stock company, "Why Lindy Ran Away," and the play was superior to any that the company has presented to the Janesville public. The scenes were enacted during the performance, but plenty of humor kept the audience in a state of suspense or uproarious laughter.

The role of Alfred Austrian, taken by Jack Bessey, a civil engineer who had fallen in love with Lindy Lane, taken by Nell Paul, were the center attractions of the play and both proved that they had lost none of their acting powers. Lindy Lane, the daughter of a tight-listed mountain farmer, refused to allow his daughter the pleasures of agreeable society, but counselled her to marry an old miser. As a consequence the daughter defied him and left her home to become the wife of the young engineer. West Blake, with his "Bump of Genius" was one of the hits of the performance and proved an important link in the plot.

Quo Vadis Pictures.

Women and children are particularly interested in George Kleine's mammoth photo-drama production "Quo Vadis," which is to be the important attraction at the Myers Theatre. The women revel in the beautiful love story that is unfolded in the charming Sienkiewicz romance while the children appreciate its vast and stirring scenes of Roman history and take particular delight in the big spectacular features—the burning of Rome—the chariot races—combats of the gladiators and thrilling experience of the Christians when thrown to the hungry lions in the arena, and the grown up children, the men, seem to enjoy it as much as their wives and offspring. It has a wonderful appeal to all society and is doing a remarkable business.

UNCLE WALT

The Poet Philosopher Copyright, 1906, by George Matthew Adams BY WALT MASON

I am always coughing up, it seems to me; there's the tax upon my bow wows, two or three; and I have to ship a crate of my money to the state, and the poll tax makes me hotter than a bee. And the city needs my money for its game; and the country comes along and climbs my frame, crying, as it wields its ax, "You must pony up your tax," and the whole drotted business is a shame. For it's money that I work so hard to get! Every nickel means a bucketful of sweat; and my guilders and my marks go to fatten up the sharks who are holding down the offices you bet! And the final bill is coming down citizens; it will make our boasted freedom look like prunes, when our nifty Uncle Sam, the original I am, puts his hand into the voter's pantaloons. And he'll take your little wad and count your seeds, and he'll confiscate the dollars of your dads, saying "I require the same, to conduct my little game"—then you'll be a mighty mournful bunch of lads. And his motive—if you do not see its drift—is to penalize all energy and thrift; to the prudent man he cries, as he robs him, "You'd be wise if you didn't earn this cash for me to lift!"

UNCLE WALT

The Poet Philosopher Copyright, 1906, by George Matthew Adams BY WALT MASON

I am always coughing up, it seems to me; there's the tax upon my bow wows, two or three; and I have to ship a crate of my money to the state, and the poll tax makes me hotter than a bee. And the city needs my money for its game; and the country comes along and climbs my frame, crying, as it wields its ax, "You must pony up your tax," and the whole drotted business is a shame. For it's money that I work so hard to get! Every nickel means a bucketful of sweat; and my guilders and my marks go to fatten up the sharks who are holding down the offices you bet! And the final bill is coming down citizens; it will make our boasted freedom look like prunes, when our nifty Uncle Sam, the original I am, puts his hand into the voter's pantaloons. And he'll take your little wad and count your seeds, and he'll confiscate the dollars of your dads, saying "I require the same, to conduct my little game"—then you'll be a mighty mournful bunch of lads. And his motive—if you do not see its drift—is to penalize all energy and thrift; to the prudent man he cries, as he robs him, "You'd be wise if you didn't earn this cash for me to lift!"
